Dear Don:

In an era of declining quality in most of the goods and services we in this country buy today, it is a pleasant shock to deal with a firm as conscientious, skilled and reliable as yours.

In our haste to place our King Air back in service, I did not have the opportunity to personally thank you for the splendid job and the fair price. When able to withdraw it from service, we will send our other airplane to you for your magic touch.

Best regards,
